

Learning for Life, Anchored in Christ

Our values focus this half term is **Service**

Hi Everyone,

Well done once again to all the children who are accessing the remote learning whether online or collecting and completing work packs. Lots of you are really trying hard to keep up with your work. If you are having difficulties please remember to speak to your teacher or learning support when they phone or if you are on Teams. Your teachers are available throughout the day online unless they are ill, or when they are teaching in school and then your learning support assistant will be available to help.

We are still trying different ways to upload your work to make it easier for you to access but with so many different devices being used to access it can still be tricky. Don't worry we are continuing to look at different ways to make things as straightforward as we can and the teachers are receiving regular training to understand new and different options. The government have provided guidance for what our remote learning should like and how many hours work pupils should be access every day. You can find the guidance on

https://www.gov.uk/government/publications/remote-education-good-practice/remote-education-good-practice

There is also a section of our school website called Remote Learning. It is in the Parents Information Tab. Here you will find our Remote Learning contingency plan which sets out what and how will provide learning and a letter which also states what can be expected. **Please remember, your child should be completing and returning work daily. If you are using printed packs, these MUST be returned weekly for the teacher to access and feedback on learning.**

The curriculum that your child is receiving at home is the same as that the pupils in school are receiving. School is still currently open for critical worker pupils and vulnerable pupils. If you feel this applies to you, please contact us and we will do our best to help.

The well-being of all of our school community is important to us, we will regularly signpost agencies and websites that can offer support. We are here for all our families if you need us and Miss Akers is available to support on the phone in what ever way she can.

May the Lord protect and keep you.

Devices-

If you are struggling with devices to access the online learning let us know. We have a limited number of devices we are able to loan out.

<u>Safeguarding:</u> <u>Support and Guidance</u> <u>Numbers</u>

During 'Lockdown' and over these last few weeks' people have been feeling isolated and not sure of who to turn

to. We understand, with changes happening all around us, this can be an uncertain and anxious time for all. Whilst staff are available over the phone, we are having to adjust and limit face to face meetings. We still want to support our families and wider community, so that help is always found. If you need to contact school for support, please call and ask to speak with Miss Akers.

Here is a list of numbers that may help in offering further support and guidance to families.
