Serving the local community in the name of Christ since 1859

12th July 2018

Afternoon everyone.

I hope you are all excited about tomorrow's Summer Fayre/Community Open Day. I would like to make parents aware that tomorrow is not a **normal school** day, there will be no breakfast club, no lessons for pupils, and no set time for you to attend. We ask that you pop in with your child to get their attendance mark for the day, pick up their report and to talk to their class teachers. As well as enjoy all the exciting things we have on offer throughout the day as listed below.

Please be aware of the start/end times of the day and note that we will be closing the school from 12-1pm for lunch.

I look forward to seeing you all there.

Summer Fayre & Community Open Day

Friday 13th July

9am-12 / 1pm-3pm

(Closed for lunch 12 - 1pm)

School will be open tomorrow for our joint Community Open Day and Summer Fayre

Make sure you pop in to get your child's attendance mark, pick up their report and talk to their teacher about their progress.

In the hall we will have a selection of services available for parents to talk to including:- Free@last, The School Nurse, and My Brother's Keeper

Make sure to also wander outside to enjoy everything we will have on offer including refreshments, bric a brac, an obstacle course, archery, DJ/music, an ice cream van, sweet tombola, face painting, nail art and more.

Friday 13th July - No School/Lessons: Children must attend school with their parents/carers to get their attendance mark and report. *Children to be accompanied by an adult at all times*

Safeguarding Silver Canisters!

Silver canisters have been noticed littering both Butlin and Stuart Street.

These silver objects are used to store nitrous oxide, or 'laughing gas', which people are inhaling to gain a 'legal high'. Although this drug is 'legal' to carry, it is illegal to be sold to people/children under the age of 18.

To talk further about this issue please see Miss Akers or a member of SLT.

The effects from using nitrous oxide can be fatal -

- Slow down the brain function
- Dizziness and poor judgement - creating a risk of accidents
- Fainting/Passing out
- Vitamin B deficiency
- Sudden Death from lack of oxygen
