Our values focus this half term is

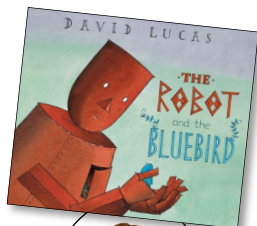

**Humility**

Hello everyone,

It's Mrs Rodgers here. I have been working at St. Clement's now for 18 months and currently work alongside Mrs Nizamis in Year 2. It has been a busy week at St. Clement's as the children across school have been working super hard on their new topics and learning targets. It is wonderful to see the amazing progress that the children have made, and I can't quite believe that this is the final term of the school year.

In Year 2 we have started reading a wonderful book called "The Robot and The Bluebird" by David Lucas. This uplifting story is about a Robot with a broken heart healed by his friendship with a little bluebird. This book will take Year 2 on a learning journey of non-fiction writing including non-chronological reports, instructions and letters. We will post some of the super writing that we have done onto our class blog for you to see.

I hope that everyone has a great weekend! Take care and stay safe.

Mrs Rodgers - Class Teacher

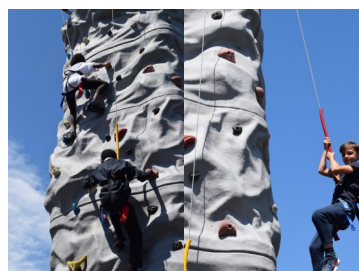

## Climbing Wall Fun in the Sun!

On Wednesday 16th June children from Year 1-6 enjoyed having a go on the climbing wall. Some children were a little scared, others couldn't wait to have a go.

Afterschool lots of children took the opportunity to have another go on the wall and show their parents just how high they could get.

Overall, I think everyone had a great time, and really seemed to enjoy themselves.

## Rights of the Child

### Article 10

(family reunification)

Governments must respond quickly and sympathetically if a child or their parents apply to live together in the same country. If a child's parents live apart in different countries, the child has the right to visit and keep in contact with both of them.

### Article 21 (adoption)

Governments must oversee the process of adoption to make sure it is safe, lawful and that it prioritises children's best interests. Children should only be adopted outside of their country if they cannot be placed with a family in their own country.

### Safeguarding: Pool Safety

Having a pool, pond, spa, or hot tub on your property is a huge responsibility when it comes to safety. Remember, drowning can happen in seconds to minutes, and is often completely silent. So, vigilance is key. Here's how you can keep kids and others' safe.

- A fence that goes directly around a pool or spa is the best safety investment you can make. Four-sided pool fencing decreases water-related injuries in young children by over 50%
- Do not run or push each other around the pool
- Never dive or jump in areas that are not marked for diving
- Get out of the pool right away in bad weather, especially if there's lightning
- If you're at a party, designate an adult to supervise the children in the pool. This person should be sober and not distracted
- Make sure that babysitters and other caregivers know your rules for the pool
- After your children finish playing in the pool, put all pool toys away. Children have drowned while trying to get playthings left in the pool.
- If you have an above-ground pool, always lock, or remove the ladder when the pool is not in use.
- Ensure children take part in Swimming Lessons - local providers can be found online
- Above all, always watch children. Swimming lessons and flotation devices do not eliminate drowning risks.

## Art Day across the school

Last week we launched our new exciting topics for this half term with an Art Day.

Each year group focused on an artist which linked with their topic and then developed their art skills throughout the day. They finished the day by producing a piece of artwork to be displayed in classrooms and across the academy.

The children really enjoyed using different media and materials to create their wonderful works of art!
